Computing Dept at Chase High School

The Computing and Games Development department at Chase High is a team of 4 experienced teachers who share a passion for delivering an engaging and futureproof curriculum to our pupils. We offer a variety of extra curricular opportunities within the department including Minecraft Club, Game Jam events and Code Club. Our schemes of work across Key Stage 3 and Key Stage 4 are well resourced and regularly updated to ensure lessons are relevant and enjoyable whilst providing support and challenge to pupils in a balanced way. Our teaching rooms are also well equipped with a wide range of software and equipment, which are well maintained by our experienced team of technicians. At Key Stage 3, all pupils study Computing for 1 hour a week. We offer GCSE Computer Science and Creative iMedia (with a games development focus) at Key Stage 4. In Post 16 we offer Level 2 and Level 3 Information Technology as well as Level 3 Creative Digital Media with a focus on games development. If you are interested in being part of a supportive, innovative computing department – we'd love to talk to you.
